DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 2 and 4-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Demeyere et al., US 2002/0035053 A1. See the examples listed in the rejection above. While the disclosed alkyl ethoxylate has five equivalents of ethoxylation and the claim recites 2-4 equivalents, a *prima facie* case of obviousness exists where the claimed ranges and prior art ranges do not overlap but are close enough that one skilled in the art would have expected them to have the same properties. *Titanium Metals Corp. of America v. Banner*, 778 F.2d 775, 227 USPQ 773 (Fed. Cir. 1985). In the present case, the degree of ethoxylation is commonly manipulated to affect the hydrophilic-lipophilic balance (HLB) of the surfactant. The examiner takes the position that the HLB values of a tetra-ethoxylate and a penta-ethoxylate would be similar enough that the person of ordinary skill would expect similar properties. In addition, such ethoxylated surfactants are statistical mixtures, and a tetra-ethoxylate would contain appreciable amounts of penta-ethoxylate, and vice versa.

Response to Arguments

3. Applicant's arguments filed June 25, 2010 have been fully considered but they are not persuasive. Applicant's amendments overcome the 102, 112 and 101 rejections, but the claims are obvious for the reason of record in the previous action. Applicant

argues that the prior art and the present invention are directed to compositions which are stable at low and high temperatures, respectively, and that one is not obvious over the other. This is not persuasive because stability testing is a normal expedient, as is apparent from its importance both in the reference and in the present disclosure. If the presently claimed compositions possess a property that is not possessed by the prior art compositions, applicant should show this by submission of a timely filed declaration or affidavit.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
